u vote YES?

measure, Proposition 1A for thousands of union

work!

Proposition 2 VOTE YES

Transportation: Funding

Proposition 2 was placed on the ballot by the Legislature, only after an intense, coordinated lobbying effort by construction employer associations and the Laborers and Operating Engineers unions.

Proposition 2 restricts politicians from dipping into the state Highway Fund and using the money for other programs.

Why should you vote YES?
The California State Constitution mandates that all money collected on motor vehicle fees, state gas tax, and sales tax on gasoline and diesel be used strictly for the construction and maintenance of our roads, highways and transit systems. This money may be loaned to the state General Fund to support such non-transportation activities as education, prisons, health and social programs, but is supposed to be paid back with interest.

The reality is that over $2 billion in transportation funds have been "borrowed" by the politicians for such things as bailing Los Angeles County out of its financial woes, and has never been paid back. Prop 2 will stop this "highway robbery," and ensure that our gas taxes and other transportation fees go to improving our transportation system and providing thousands of jobs for union construction workers.

Proposition 5 VOTE YES

Tribal-State Gaming Compacts.

This initiative would authorize certain types of gambling on California's Indian reservations, such as slot machines and banked card games. Specifically, it would:

- provide a model compact between Indian tribes and the state that sets terms and conditions for gambling on tribal lands;
- require the state to offer this compact on request by an Indian tribe;
- allow tribes to contribute a portion of their profits to tribes that don't have gaming facilities, as well as to nearby communities and statewide emergency medical programs.

Why should you vote YES?
Passage of Proposition 5 will enable the construction of new gaming facilities in Indian reservations throughout California. The building trades have received a commitment from backers of Prop. 5 that all new construction will be built union.

Proposition 9 VOTE YES

Electric Utilities.

This initiative would provisions of the low electricity in Calif. California Legisla which set in motion utility deregulation AT&T. The bill encourages private inve as PG&E and Sout The purpose of the increase competitive electricity prices. T also allows the utilion on bad imprer nuclear power become competitive outside the state wealth to California cu

Why should you vote YES?

On the surface, Prop 9 appears appealing, because a rate cut on electric
